ANGELA CASTILLO-GILL
Data Scientist

LinkedIn • Phone: +44 7494 098822 • E-mail: acastillogill@gmail.com • Twitter • Data Science Portfolio

I love data. I love collecting data on myself, my partner, the job I have, the industry I work in, the country I live in - on everything really. But better than collecting data is **analysing** it and making informative **visualisations**. Nothing like that face of awe when you reveal what all those rows of data look like - and what does it have to do with other variables? And if you can build a **model** to fit the data you're interested in?

We all want to save time, space, reduce waste, and we want to earn more, increase brand sales and profit. That's why I'm passionate about **machine learning** and **data science** - it allows us to overcome human biases and make better decisions to reach our targets. My degree in industrial engineering has given me the skills to use new techniques in the field of marketing, consumer research, predictive analytics, operations research, and accounting metrics. Since new tools and techniques are constantly appearing, to stay up to date, every month I receive a different data-related online certification.

DATA SCIENCE SKILLSET

Languages	Machine learning	Data Viz tools	Libraries	Statistics	Character traits
-R	-Linear regression	-Excel	-Dplyr	-Linear algebra	-Numerate
-SQL	-Logistic regression	-Google Charts	-DataTable	-Multivariate calculus	-Eye for detail
-Python	-PCA	-GGplot2	-mlr	-Probability distributions	-Team player
-Microsoft Excel	-Clustering	-Tableau	-Caret	-Hypothesis testing	-Quick learner
	-CART		-Gbm	-Time series analysis	-Strong communicator
	-Random Forests		-XGBoost	-Forecasting	
	-k-NN		-pandas	-A/B testing	
			-seaborn		

PROFESSIONAL EXPERIENCE

MANGO SOLUTIONS   Feb 2019 - Present
London, United Kingdom
Data Scientist

UNIVERSITAT AUTÒNOMA DE BARCELONA   Feb 2017 - Jan 2019
Barcelona, Spain
Data Scientist | Researcher

- Models built and submitted to peer-reviewed publication on 27/11/18 to *Ecological Economics*: two multiple linear regression (MLR) and one time series forecast.
  - MLR: One to predict property sales prices and the other to predict number of trees according to spatial location.
  - Time series forecast: To predict the number of invasive species detected in the Iberian Peninsula.
- Performed end-to-end data analysis which involved database design, data cleaning, visualisation, and report writing to communicate findings to non-technical colleagues.
- Built a spatial-temporal model to simulate an international law and inform policy makers.
- Proposed and fostered collaboration with the data science team of one of the biggest online real-estate companies in Spain, Idealista SA in order to use their data for research.
- Collaborated with non-technical colleagues including government stakeholders to create an ethical and well-informed model.
- Communicated data insights at several international public-speaking engagements to promote the research institute.

INFORMA AGRIBUSINESS INTELLIGENCE   Apr 2016 – Mar 2017
London, United Kingdom
Data Analysis Consultant

- Built time series visualisations to show the trend in commodities of interest.
- Performed end-to-end data analysis which involved database design, data cleaning, visualisation, and report writing on the subjects:

1. Quinoa Markets 2016 – Trends and Opportunities
2. Colombian Agribusiness after FARC peace deals
3. Delivering the Sustainable Development Goals (SDGs) in Agrifood Companies 2017

UNIVERSIDAD SERGIO ARBOLEDA   Aug 2016 - Dec 2016
Bogotá, Colombia
Analysis of Cleaner Production Lecturer

- Designed the module Best Practices in Cleaner Production geared towards last year Industrial Engineering Students.
- Motivated the implementation of Best Practices in Cleaner Production in small and medium sized enterprises (SME's) in Bogotá, Colombia.

HRA FOOD AND DRINK   Oct 2015 - Jan 2016
Torquay, United Kingdom
Data Analysis Intern

- Built a database of all products in the relevant industry from a different number of sources.
- Analysed every aspect of the British flavoured milk industry including main producers, brands, formulas, consumer trends, packaging and distribution.
- Suggested innovation strategies for the dairy industry and niche food markets in the UK.
- Wrote reports for the British flavoured-milk industry that included consolidated trends and suggested growth areas.
- Crafted unique and timely data visualisations to include in the marketing reports.
- Represented the company at national-level events including Food Matters Live.

EDUCATION

UNIVERSITY OF EXETER, Master of Science in Food Security & Sustainable Agriculture   2014 - 2015
Exeter, United Kingdom – Grade: Distinction Award
Research project: *Published in journal Philosophical Transaction of the Royal Society.*

UNIVERSIDAD DE LOS ANDES, Bachelor of Science in Industrial Engineering   2010 - 2014
Bogotá, Colombia – Grade: 4.02/5 (top 10% of cohort)
Key modules: Probability and Statistics, Optimization, Finances, Logistics, Organizations.

GRANTS AND AWARDS

María de Maetzu, Spain   2017

Spanish Ministry of Economy and Competitiveness (MINECO) – *Ten scholarships granted each year.*
Awarded a scholarship worth €50,000 to pursue a María de Maetzu PhD. 'María de Maeztu' Unit of Excellence is the highest institutional recognition of scientific research in Spain.

IBM, United Kingdom   2015

IBM Best Student Recognition Event 2015 – *Two students selected from each country per year.*
Awarded a place at the IBM Best Student Recognition Event in Amsterdam, Netherlands.

UNIVERSITY OF EXETER, United Kingdom   2014

Ayudar Scholarship – *Only two scholarships granted per year.*
Awarded £30,000 to fund tuition and maintenance fees during postgraduate studies.

LANGUAGE SKILLS

English (native), Spanish (native) and French (intermediate).

APPENDIX – ONLINE CERTIFICATIONS

R

Title	Issued by	Completion date
Introduction to R	DataCamp	January 2018
Introduction to the Tidyverse	DataCamp	January 2018
Working with Geospatial Data in R	DataCamp	February 2018
Intermediate R	DataCamp	February 2018
Cleaning Data in R	DataCamp	February 2018
Data Manipulation in R with dplyr	DataCamp	March 2018
Data Visualization with ggplot2 (Part 1)	DataCamp	March 2018
Data Visualization with ggplot2 (Part 2)	DataCamp	March 2018
Data Visualization with ggplot2 (Part 3)	DataCamp	April 2018
Spatial Analysis in R with sf and raster	DataCamp	April 2018
Reporting with R Markdown	DataCamp	April 2018
Exploratory Data Analysis	DataCamp	April 2018
Joining Data in R with dplyr	DataCamp	May 2018
Introduction to Data	DataCamp	May 2018
Writing Functions in R	DataCamp	May 2018
Working with Dates and Times in R	DataCamp	May 2018
Correlation and Regression	DataCamp	June 2018
Exploratory Data Analysis in R: Case Study	DataCamp	June 2018
Importing Data in R (Part 1)	DataCamp	July 2018
Importing Data in R (Part 2)	DataCamp	July 2018
Importing & Cleaning Data in R: Case Studies	DataCamp	August 2018
Sentiment Analysis in R: The Tidy Way	DataCamp	August 2018
Cluster Analysis in R	DataCamp	September 2018
Unsupervised Learning in R	DataCamp	September 2018
Supervised Learning in R: Classification	DataCamp	September 2018
Machine Learning with Tree-Based Models in R	DataCamp	September 2018
Manipulating Time Series Data in R with xts & zoo	DataCamp	November 2018
Introduction to Time Series Analysis	DataCamp	November 2018
ARIMA Modeling with R	DataCamp	December 2018
Forecasting Using R	DataCamp	December 2018
Machine Learning in the Tidyverse	DataCamp	December 2018
Developing R Packages	DataCamp	January 2019
A/B Testing in R	DataCamp	February 2019
Building Web Applications in R with Shiny	DataCamp	March 2019

SQL

Intro to SQL for Data Science	DataCamp	June 2018
Joining Data in SQL	DataCamp	June 2018

Python

Introduction to Python	DataCamp	January 2019
Python for R Users	DataCamp	January 2019
Intermediate Python for Data Science	DataCamp	February 2019
Python Data Science Toolbox (Part 1)	DataCamp	February 2019
Python Data Science Toolbox (Part 2)	DataCamp	March 2019

Business Analytics

Operations Analytics	Coursera	November 2018

Customer Analytics   Coursera   December 2018
People Analytics   Coursera   January 2019
